

THE CONTENT

MATHEMATICS, PHYSICS AND INFORMATICS

- Rozov A. V.** On the Residual π -Finiteness of Free Products of Nilpotent Groups of the Finite Rank with Central Amalgamated Subgroups 7
- Bestuzhev A. S.** On the Structure of the Multiplicative Cyclic Semirings 14
- Ibashova A. B., Pervin Yu. A.** The Concept of Information Primary Education in Kazakhstan (origin, directions, perspectives) 19
- Krechet V. G., Sinilshchikova I. V.** Stationary Spherical Distributions of the Self-Gravitating Nonlinear Spinor Field 27
- Tikhomirov S. A., Lyapin A. P., Voylokova O. A.** Invariants of Stable 2-Bundles on Complex Projective Space and Adaptation of Bart's Computing Technology 33
- Abdullaev A. R., Nevolina O. A.** On a Quasilinear Differential Equation of a Neutral Type in a Critical Case 39
- Korneva O. S.** Use of Electronic Spreadsheets in the Financial Analysis 43
- Afanasiev S. G.** To the Question of Forecasting Dynamics of Mathematics Development 50

BIOLOGY

- Lebedeva O. A., Lapirov A. G.** On Spread of Some Species of Batrachium (Ranunculaceae) in Streams of the Volga Region in the Yaroslavl Region 55
- Fomichiova E. M., Semernoy V. P.** Species Diversity and Morpho-Functional Features of Aquatic Organisms of the Psammon Ripal in the Uleima River 61
- Voronin L. V.** Opportunistic Fungi in Freshwater Ecosystems 67

PHYSIOLOGY

- Makarenkova E. A., Malakhov M. V., Melnikov A. A.** Influence of Different Lung Ventilation Modes on a Standing Balance of Athletes 75
- Popov S. G., Melnikov A. A.** Correlation between Reactions of Central and Peripheral Hemodynamics to the Tilt Test and Physical Performance 80
- Krebs A. A., Pugachev K. S., Filippov I. V., Masliukov P. M., Zuzin E. V.** Modulatory Influences of Amygdala on Dynamics of Infralow Brain Potentials in Primary Cortical Sensory Areas of the Rat Brain 86

<i>Muravyov A. V., Komlev V. L., Mikhaylov P. V., Akhapkina A. A., Muravyov A. A.</i> Erythrocyte Deformation: the Role in Microcirculation	93
<i>Afanasiev V. V., Osetrov I. A., Mikhailov P. V., Suvorova M. A.</i> Mathematical Modeling of Age Changes of Parameters of Organism Functional Systems	103
<i>Kuznetsova A. P., Tyatenkova N. N.</i> Comparative Characteristics of Reserve Potentialities of the Cardiorespiratory System in Adolescents according to Harmony of Physical Development	109

CHEMISTRY

<i>Smirnov A. V., Shalygina E. E., Dorogov M. V.</i> The Comparative Analysis of Known Methods of the Didanosine Synthesis – the Antiviral Drug is made	114
<i>Smirnov A. V., Shalygina E. E., Dorogov M. V.</i> The Synthesis of Montelukast – a Broncholytic Drug	119

GEOGRAPHY AND ECOLOGY

<i>Kolbovsky E. Ju.</i> “Neolandscape Science”, or Unresolved Questions of the Classical Geography Theory (Part 2)	125
